

## Microsoft Power BI

At Connamix we work with the industry's best to provide exceptional solutions. Microsoft Power BI allows you to gain deeper insights in your business, whilst working in a familiar environment.

Utilize Microsoft Power BI so your business decisions can be based on real time, and data quickly analysed. You can gain new insights into operations, finance, customer experience and personnel management instantly. A uniform, integrated solution for Business Intelligence will evaluate risks and increase opportunities.

Connamix develops the right reports for you by providing comprehensive setup, training and support.

### Key Components:

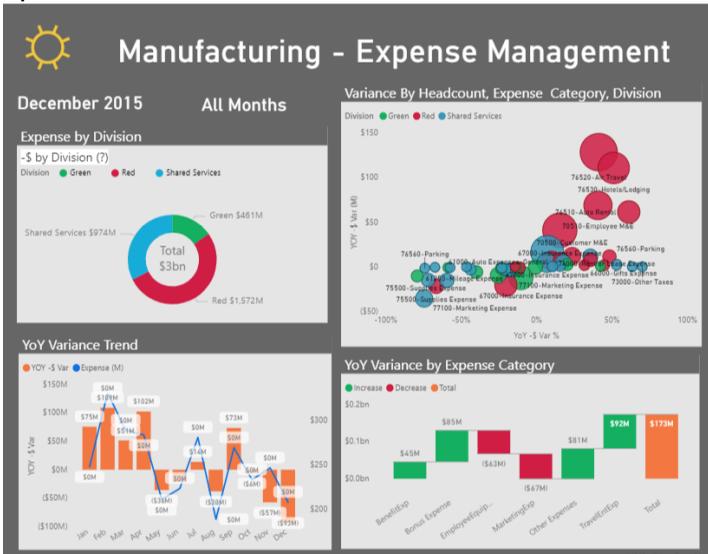

- **Microsoft Office:** Excel is the most widely used BI tool. Used in connection with an SQL server, you can compile modern analysis in a familiar environment.
- **Microsoft SQL Server:** SQL is the basis for a reliable, productive and intelligent data platform and forms the backbone of a data warehouse. You can reduce costs of applications and gain detailed insights into your entire company. The included self-service BI tools to design, analyse and report easily and intuitively.
- **Microsoft SharePoint:** With SharePoint, you can quickly and easily provide reports to a defined group of users. The range of BI is enhanced by integrating your employees in the performance management process through personalised, web-based dashboards.

## Power BI for Manufacturing

Manufacturers need to collaborate, monitor and communicate on available live data. Power BI helps your team monitor real time data from multiple sources in one dashboard, and drill down to identify issues. Use mobile apps to get real-time alerts and optimize your operations.

Where to use our intelligent solutions:

**WEB CLIENT**

**WINDOWS CLIENT**

**TABLET CLIENT**

Monitor your supply chain and identify problems before they reach critical processes. Share dashboards with suppliers and partners so they can adjust, making your processes leaner and smarter. Monitor quality inputs and outputs from all sources to make quick, meaningful decisions.

To find out more about how we can put our intelligent solutions to work for you, call 0808 164 3689 today.
